COMFORT & FEATURES*

Uniquely electric.

ROBUST

Built strong for your mission.

VERSATILE

City-smart agility meets impressive loading capacity.

SUPREMELY COMFORTABLE

Sets a new standard of life on board.

100% CONNECTED

Advanced connectivity puts you in full control.

Car-like comfort, high capacity,
zero-emissions.

Versatile, strong, 100% electric. Ready for every challenge.

The new IVECO eMoovy stands out for its remarkable strength and robustness. The only 3.5 t eChassis Cab in its segment, with its easily retrofittable design for multiple applications, high energy battery and fast charging it is ready for every challenge - from urban logistics, door-to-door deliveries, refrigerated transport, or specialised tasks. It navigates the last mile with the comfort, safety and power needed to excel in any urban jungle.

Built strong for your city mission.

The IVECO eMoovy is the only 3.5 t eChassis Cab in the mid-size class. The resulting exceptional robustness makes it ideally suited to a wide range of professional missions, from door-to-door deliveries and refrigerated transport to jobs in construction and speciality applications.

Spacious for big loads

Designed with a low-profile platform to maximise cargo space, the IVECO eMoovy offers a **loading capacity** well above its segment with **up to 10 m³**.

Durable and strong

On the toughest missions, you can rely on the IVECO eMoovy's remarkably **durable and strong chassis**.

Safety first

The IVECO eMoovy's **exceptionally robust body** construction is designed to protect you, your valuable load, and the batteries, ensuring a safe ride on your mission.

Highly customisable

The unique chassis accommodates a **wide range of bodies** - from refrigerated units to street food, from waste collection to urban maintenance.

Punches above its category in payload

The IVECO eMoovy can carry surprisingly heavy payloads for its size thanks to its robust chassis construction. It can carry **a payload of up to 1,500 kg^(*)** including your load and vehicle body conversion – a loading capacity you expect to find in larger vans.

(*) Maximum payload with 63 kWh battery.

Electric versatility without equal.

With its city-smart agility, fast charging, autonomy and the impressive loading capacity of a larger vehicle, the IVECO eMoovy unlocks the full possibilities of your urban mission.

All the range your urban mission needs

The capacious 76 kWh battery of the IVECO eMoovy gives you all the autonomy you need with a range of up to 320 km⁽¹⁾ in WLTP cycle (Worldwide Harmonised Light Vehicle Test Procedure). You also have the option to choose a lighter, 63 kWh battery with a range of up to 265 km in WLTP cycle⁽²⁾.

All the flexibility of super-fast charging

With the 350 kW charge – the fastest in the mid-size category - it takes the IVECO eMoovy less than 10 minutes of charging to reach a 100 km range, giving you unparalleled flexibility for your mission.

The convenience of home charging

You can charge your IVECO eMoovy overnight at home with AC charging on a household socket in Mode 2 single-phase up to 7 kW and three-phase Mode 3 up to 11 kW.

The power supply for every application

The Vehicle to Load feature further enhances the IVECO eMoovy's versatility. With an AC 230 V supply supporting electric loads up to 3.5 kW, bodybuilders power mounted bodies like refrigerated units. You can also use it to operate your equipment and power tools. Additionally, an adapter for the charging inlet at the front of the vehicle serves as a second AC power supply.

⁽¹⁾ Consumption based on simulations with vehicle (with aerokit) + body height: 2,600 mm.

Lower vehicle height may improve WLTP range. 2,230 mm height and aerokit: 360 km. Ranges may vary with final homologation.

⁽²⁾ 138 kW derated engine power with the 63 kWh battery.

Effortless comfort for long work days.

Experience unparalleled comfort on the IVECO eMoovy. Its cab sets a new standard in onboard living with an interior that seamlessly blends functionality with high-end finishes and car-like comfort, ensuring lightening the load of a long day on the job behind the wheel.

Style meets function

The elegant and well-appointed dashboard provides a luxurious and functional work environment. The 12.3" colour configurable digital cluster is positioned high on the dashboard to give you the best view of your vehicle's information. The infotainment system offers clear and intuitive navigation on its ample 10.25" LCD display, so you can focus on being productive in your job.

Effortless driving

The IVECO eMoovy is as easy to drive as a car and bristles with features that will make your life easier. Behind the wheel, your driving comfort will be enhanced by the intuitive button-type electronic shift selector and you will enjoy a smooth drive with the smart regenerative braking that automatically controls the braking phases. Stopping for deliveries will be effortless with the fully hands-free entry and exit with Keyless Entry & Go.

A supremely comfortable ride

Travel in a comfortable internal climate year round with the heated and ventilated eco-leather seat, heated steering wheel and efficient air-conditioning system that purifies the air.

The suspensions and the smart regenerative braking, which automatically controls the braking phases, will ensure an exceptionally smooth ride.

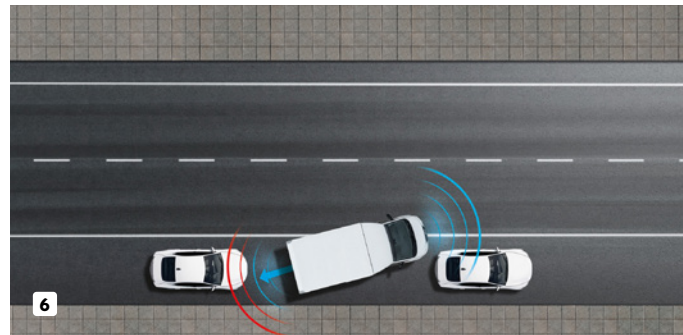

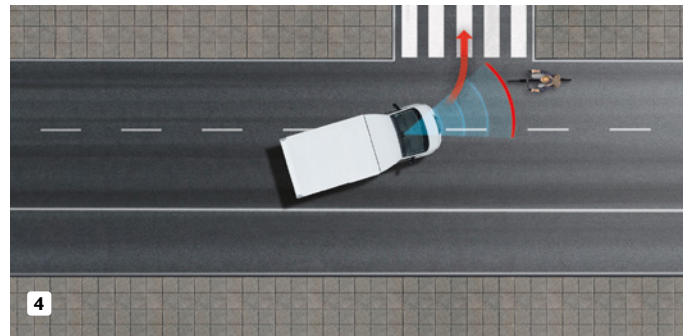

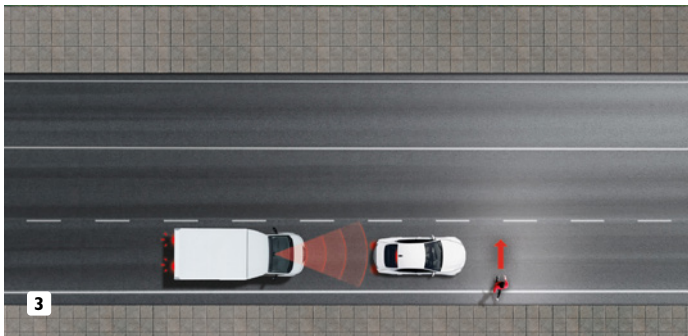

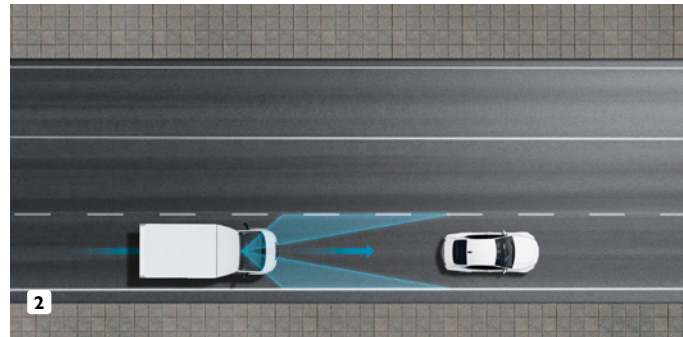

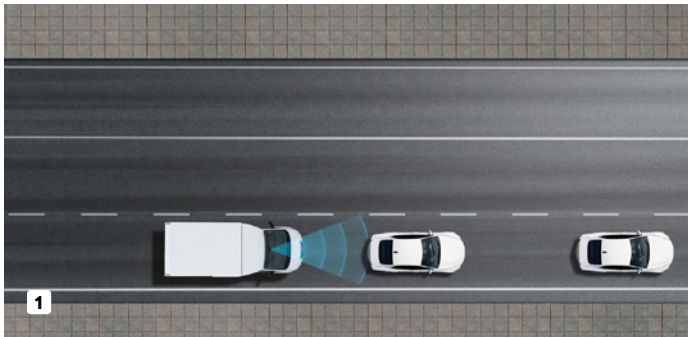

All the storage you need

The well-thought-out cab environment is designed to provide ample storage space for you to keep all your belongings safe and organised: plenty of open trays, a capacious glove box, overhead storage, a central drawer with bottle holders, and handy pockets on the doors.

Safe, stress-free driving.

Enjoy a safe and stress-free driving experience with the complete series of Advanced Driver Assistance Systems, which make driving on the road and in traffic, manoeuvring and stopping for deliveries effortless. In busy city traffic conditions, they will help you avoid possible collisions and keep you focused on the road.

1 SMART CRUISE CONTROL STOP&GO

Automatically keep pace with the vehicle in front, stopping and starting as required.

2 LANE FOLLOWING ASSIST

Automatic steering to remain centred in your lane, monitoring lane markings and the car in front.

3 FORWARD COLLISION AVOIDANCE ASSIST

Avoid a collision with the vehicle ahead, pedestrians and cyclists on the road, automatically braking if necessary.

4 INTERSECTION ASSIST

Avoiding collisions with oncoming traffic when turning left at an intersection.

5 DRIVER ATTENTION WARNING

Stay focused with a sound alert and recommendation to take a break when showing signs of inattention.

6 PARKING DISTANCE WARNING

Park effortlessly with this feature that alerts you to obstacles when moving forward or reversing.

IVECO

IVECO eMOOVY

Charging **made Easy.**

The 100% connected IVECO eMoovy provides a complete eMobility solution with a range of features and services designed to make your life easy when it comes to charging your vehicle and having the power and range you need, when you need it.

Charging Solutions Recommended by IVECO: One Interface, Trusted Partners

Experience hassle-free electrification. Our trusted partners provide top-tier chargers, with IVECO as your single point of contact for procurement and support. For inquiries, contact IVECO for comprehensive assistance, ensuring uptime and peace of mind.

eCharge Card: in need of charge boost, charge on the go

Charge at over 700,000 public points across the EU, including Ultra Fast points for 100 km range in just 10 minutes. Benefit from seamless payment and single-invoice billing.

IVECO Easy App: all-in-one control of charging and settings

Manage charging schedules, doors, and cabin temperature remotely via our app. Find public charging stations, check prices, and availability.

IVECO ON Portal: your vehicles at a glance

Monitor vehicle availability, charging status, and locations via the IVECO ON portal. Simplify vehicles management with ease.

Smart Routing: you can count on being on time

Optimize trips with TomTom Live Services, which includes real-time route planning based on vehicle range and state of Charge prediction.

eRange Assurance: peace of mind on your mission

Stay in control of your IVECO eMoovy's charging status and range. Receive timely alerts and updates to ensure you always have the power to complete your journey confidently.

All missions in the city with zero emission.

The IVECO eMoovy is your ideal electric commercial vehicle for the last mile. With its robust construction and low-floor design, this unique electric chassis cab can be customised for any urban mission. With the multiple charging options and super-fast charging, you can always rely on IVECO eMoovy to complete your mission when you need to. It combines this versatility with the premium comfort and driving experience of a high-end car. It is a true sustainable business generator for the city.

Up to 10 m³ loading volume

	Chassis cab	Up to max (converted)

	Rear axle	1,995
Payload ^(*) (kg)		Enhanced battery
		Base battery
		1,480
		1,530

(*) May vary depending on body weight distribution.
Available payload already is on top to the driver weight, assumed in 75 kg.

Up to 320 km WLTP range

Energy	Enhanced	Base
Installed (kWh)	76.1	63
Usable (kWh)	73.4	60.7
WLTP range ^(*) (km)	320	265

(*) Consumption based on simulations with vehicle (with areokit) + body height: 2,600 mm
Lower vehicle height may improve WLTP range. ie 2,230 mm height and areokit: 360 km
Values may vary with final homologation

Super fast charge up to 350 kW

AC charger Max power (kW)	11 (3 phases) - 7 (1 phase)
Time to Charge 10% - 100% State of Charge (76.1 kWh)	7 hours 20 min
DC charger Max power @ 800 V stations (kW)	350
Time to Charge 10% - 80% State of Charge (76.1 kWh) 800 V fast charge (min)	20

Up to 100 km in less than 10 minutes with 800 V infrastructure.

Last-mile urban deliveries: completed with ease

Navigate the urban jungle comfortably in the car-derived cab and easily tackle the traffic thanks to the IVECO eMoovy's engine power. Features such as the low-floor design and hands-free Keyless Entry & Go make the perfect vehicle for missions such as door-to-door delivery. The high-energy battery and super-fast charge give you all the range you need - even with powered bodies such as refrigerated units, powered with the Vehicle to Load feature.

The perfect partner for municipality jobs

The IVECO eMoovy's uniquely robust construction is ideal for accommodating the wide variety of bodies used in municipality work, from waste collection to urban maintenance – including those that put the vehicle under particular stress, such as small aerial platforms. In addition, it offers the convenience of an AC socket in the cab to operate your power tools.

Extreme versatility for specialty applications

All the characteristics of the IVECO eMoovy make it supremely versatile and ideally suited to the most varied types of specialised missions, such as street food vending. The low-floor design is perfect for customisation with the worktops, storage and equipment you need, and provides a comfortable standing height for food preparation. The Vehicle to Load feature provides the power supply to operate the cooking equipment, even when the engine isn't running.

IVECO Services Solutions.

The complete development of state-of-the-art vehicles is important to provide our customers with Mobility Solutions that best meet their needs. At IVECO, our goal is to improve the productivity and profitability of our customers' businesses. We do this by maximising vehicle uptime and efficiency, driver safety and environmental protection.

Uptime

To maximize your vehicle's uptime by avoiding unplanned stops through real-time monitoring, remote diagnostics and M&R schedules.

Driver Care and Safety & Security

To promote a safer driving style, improve the drivers' performance and increase their safety for a better experience behind the wheel.

eMobility

IVECO eMobility services enable you to identify the most efficient routes and charging plans, maximise your vehicle's range with remote controls and optimise uptime and energy efficiency with our timely alerts on your vehicle's remaining charge.

Productivity & Efficiency

To reduce energy, optimise routes and improve your drivers' driving style for a more productive and efficient business with lower running costs.

Parts & Accessories

Our extensive offer of high-quality parts and services enables you to customize your vehicle and enhance your life on board.

Service bundle.

All vehicles come with the connectivity box installed, allowing you to activate the eStart Pack Standard and combine it with a choice of Premium Mobility Solutions tailored to your business goals (terms and conditions apply).

Standard service bundle.

eStart Pack⁽¹⁾

A set of services to simplify your life on board:

- **IVECO ON Access** to monitor your IVECO eMoovy and optimize its performance and efficiency.
- **Over-the-Air Software Updates** ensure optimal vehicle performance at all times
- **eRange Assurance** to enjoy full peace of mind on your vehicle's battery and charging status.
- The new **IVECO Easy App** to make your life as a driver easier.
- **eRemote control** of key vehicle functions to save time and resources, and maximize efficiency and safety.

Premium services.

You can tailor your mobility solution with these additional Premium services:

- **IVECO ON Plus** enhances your IVECO ON experience with localisation updates.
- **eCharge Management** for a simplified and integrated charging experience.
- **TomTom Live Services** with Smart Routing to ensure accurate travel time and peace of mind on range.
- **IVECO ON Web API** to easily manage all your vehicles with your existing software solutions.
- **M&R Contracts** to protect the value and performance of your IVECO eMoovy and your business productivity.

⁽¹⁾ Standard, included for 2 years.

Maintenance & Repair.

You can protect the value and performance of your vehicle and your business productivity with a Maintenance & Repair offer.

Our maintenance and repair contracts plans will maximize your vehicle's availability and you can rely on our skilled workforce and guaranteed high-quality IVECO Genuine Parts.

Combine the M&R elements to build a contract tailored to your needs:

MAINTENANCE

Standard Maintenance is key to keeping the vehicle up and running and is required by law. MAINTENANCE ELEMENTS is ideal for customers without their own workshop who want to contain costs.

WEAR

All components creating friction will wear over time and will eventually need to be replaced. Avoid surprises with WEAR ELEMENTS.

DRIVELINE

The DRIVELINE ELEMENTS start with cover of the most valuable components, which are those that transmit movement to the vehicle.

FULL REPAIR

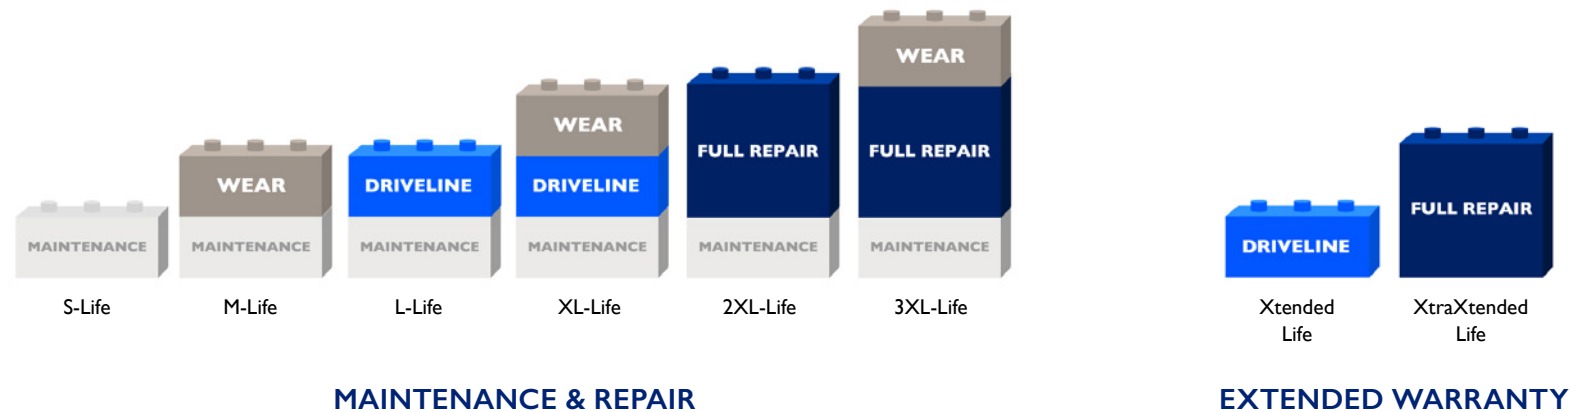

With FULL REPAIR ELEMENTS you can enjoy the full peace of mind of knowing anything on your vehicle needing repairs is covered.

Your IVECO eMoovy comes with 2-year FULL REPAIR cover included in the standard warranty.

Choose and combine to meet your requirements:

You can choose the best service levels for your business size and needs, knowing that the associated costs are fixed and predictable.

Traction battery cover: 8 years or 160,000 km.
Battery replacement when capacity declines to 70% of original capacity.

Genuine Parts

HIGH PERFORMANCE

IVECO Genuine Parts will keep your IVECO eMoovy performing at its best during its long years at your service – and cost-efficiently. With these parts, you will enjoy the peace of mind of knowing they have been rigorously tested for safety, consistency and reliability, and come with a one-year warranty.

IVECO

Assistance Non-Stop

IVECO Assistance Non-Stop is just a phone call away 24 hours a day, 7 days a week to keep your IVECO eMoovy and your business running.

IVECO Non-Stop is the original IVECO smartphone application that you can use to communicate with IVECO if your vehicle breaks down. Just insert your vehicle information (VIN and registration plate) and with a simple push of a button you can send a request for assistance to the IVECO Customer Uptime Center. We will take care of your request immediately, activate the nearest workshop and follow up on the vehicle's repair. Through the app you can receive updates on the progress of your vehicle's assistance.

PUBLICATION L243470IMASTER - 09/24

The information contained in this brochure is based on the best data available to Iveco Group following its internal tests and simulations, pending the vehicle homologation, therefore the information concerning availability and capabilities may be subject to change. Officially homologated driving range will be published closer to the vehicle's sales date, moreover, in every case, the data may vary due to various factors (e.g. truck equipment, driving style, weather conditions, route mission, vehicle condition, age and condition of the lithium-ion battery).
