IVECO S-eWAY

Your IVECO S-eWAY Artic at a glance

A new colour language:
IVECO Grey meets a touch of blue

Up to 600 km with one single charge and up to 900 km with less than one hour recharging

480 kW continuous power eAxle by FPT

603 kWh LFP battery with 97% usable energy

Born Connected. Built to Evolve with Over-the-Air capabilities from day one

IVECO Services to maximize uptime and business productivity

Engineered for your success

Energy efficiency & Productivity

Up to 600 km on a single charge enabled by the efficient FPT eAxle and aerodynamic optimized cab, alongside advanced energy-saving technologies such as predictive drive, smart routing and regenerative braking.

Cutting-edge technology

State-of-the-art 603 kWh LFP batteries with 97% useable energy with an outstanding warranty coverage of up to 10 years and 1,2 million km.

Mission Flexibility

Wide mission coverage thanks to vehicle proven compatibility with most common chargers across Europe as well as industry leading cooling machines. Multiple fifth wheel positions to ensure wide truck/semitrailer combinations.

Born Connected. Built to Evolve with Over-the-air capabilities from day one

Your new IVECO vehicle is always state-of-the-art, maximizing your time on the road.

IVECO Services to streamline electric operations

Tailored services managing energy, charging and uptime across your electric mission.

Your cabin, your space

Step inside a cabin designed around you. Every detail combines comfort, control, and style. The redesigned interior features a customizable dashboard, 10” TFT cluster, 10” infotainment, and an electric parking brake that engages automatically–simplifying operations and enhancing safety. With the AS cab, you’ll enjoy a fully adjustable steering wheel, lower driving position, and optimised ergonomics, while leather or fabric seats with plush cushions keep you comfortable on every mile.

Your onboard experience redefined with the New Digital Cockpit

Configurable cluster, full visibility

Choose between two layouts to see all your key vehicle information at a glance. Designed for Electric vehicles, it includes new and intuitive features and functionalities specific to electric mobility such as battery, charging and ePTO management, and Power Flow and Regenerative Braking level visualisation – keeping you fully in control.

Smarter infotainment, seamless journeys

Smart Routing helps you plan your journey, find the nearest charging stations, and ensure sufficient battery charge for your destination – even accounting for ePTO use. Monitor your Electric vehicle's behaviour with the Statistics Page, tracking the energy used by eMotor, ePTO, Heaters and Climate systems.

Rest, recharge, sleep well

The night area is thoughtfully arranged with a symmetrical layout for maximum comfort and peace of mind. The one-piece lower bunk offers a choice of soft or firm mattress, while the Smart or Comfort upper bunk can serve as a passenger bed or luggage space. Night-time safety locks integrated into the central locking system let you rest easy.

Lighting that works with you

Full LED lighting inside and out, including marker lights, ensures perfect visibility at night. Brighter, more durable, and energy-efficient, the LEDs help you stay safe while giving the cabin a modern, premium feel.

Efficiency meets electric style

Elongated aerodynamic cab
Stand out on the road with a cab designed for style and efficiency. All cabs feature the IVECO logo in matt gunmetal, a blue styling line on the bumper, and sun visor with the Electric logo.

Designed for safety and convenience
LED headlamps come as standard, while radar supports ADAS and GSR functions and side air deflectors keep the doors and mirrors clear –even in bad weather.

Aerodynamic efficiency
The cab's sleek, elongated design reduces air resistance, improving energy efficiency and range.

Energy onboard

603 kWh nominal (97% usable) – Massive, reliable power

The state-of-the-art LFP battery system contains a nominal energy of 603 kWh with 97% of it useable, ensuring high range even on single charge.

Durable and long lasting

Built to perform over time, the battery maintains a minimum of 80% of its capacity during the first 6 years of operation. With a warranty of up to 10 years and 1,2 million km, it's designed to keep your business moving with confidence.

Perfect for your Long-Haul and Regional Missions

The new S-eWay Artic is the best solution for your long-haul and regional delivery missions. Drive up to 600 km on a single charge, or reach up to 900 km with less than one hour of fast recharging – keeping your business moving with minimal downtime.

Easy, flexible charging

Simple and safe operation

The driver and passenger's comfort is guaranteed by a choice of seats, all with full backrest. Choose from vinyl, fabric or leather, heated, air suspension, lumbar support and even seat belt colour. With the improved ergonomics of the steering wheel and controls, every driver will be comfortable.

Customizable to your mission

Set your preferred charging parameters directly from the Cluster:

Target State of Charge (SOC):
Stop charging at your desired battery level to optimize mission readiness.

Maximum Power Limit:
Control charging power drawn from the station for efficiency and safety.
Choose slow overnight charging to start each day fully powered, or use high-power charging during drivers' mandatory breaks to quickly boost range and keep deliveries on schedule.

Charging made easy

Power your electric trucks with **IVECO eCharge**—comprehensive solutions for private depot charging and access to public stations.
For your depot, our solution includes **premium chargers Recommended by IVECO**, tested for compatibility, and installed by **certified partners** for full warranty coverage.
Choose your setup:

Fast Pack (50 kW) – Simple depot integration

Super Pack (100 kW) – High-power for demanding operations

On the road, the **IVECO eCharge Card,** IVECO ON portal, and Easy App connect you to a growing network of **truck-ready public chargers.**
With **IVECO Customer Uptime Center** coordination, charging is seamless, so your fleet keeps moving and your business stays on track.
Availability may vary by country—check with your local dealer.

IVECO
IVECO S-eWAY

Flexible for your missions

Charging interoperability without compromise
S-eWay Artic was successfully tested with most common chargers available across Europe.

Refrigeration made easy
Power the most common refrigeration units directly from the vehicle's high-voltage battery ensuring consistent cooling performance. Refrigeration units can remain connected even during charging without consuming energy from on board energy system.

Trailer compatibility you can trust
Couple effortlessly with the most widely used semitrailer configurations. Smoothly integrates into your existing fleet with multiple fifth wheel heights and positions.

All the power you need

480 kW Continuous Power eAxle by FPT Industrial

No compromise on performance
Delivering up to 480 kW of continuous power, the eAxle ensures outstanding energy management and reliability in every mission.

Compact and versatile eAxle
The streamlined design of the eAxle leaves space for body equipment and it gives you maximum efficiency without compromise on performance. The eAxle operates with a single gear, eliminating gear shifts for an exceptionally smooth and seamless ride.

eAxle main characteristics

No. of eMotors	2
Gross Combined Vehicle Weight (tons)	44
Gross Axle Weight (tons)	13
Continuous Power (kW)	480
Peak Wheel Torque (Nm)	45.000

IVECO
IVECO S-WAY

Energy saving features to maximise your range

Define the vehicle configuration that gives you the range you need.

Regenerative Braking
During deceleration the vehicle kinetic energy is used to charge the batteries.
7 different Regenerative Braking Performances can be selected to maximise energy recovery.

Eco Mode
Driving Mode Feature to maximise Range selectable by the Driver.
Fleet owner has also the possibility to select Over-the-Air the driving mode required.

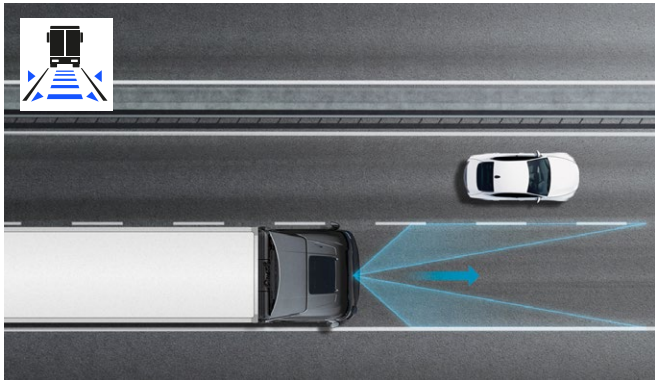
Mirror Cams
The new mirrorless camera allows for a better visibility for the driver and improves aerodynamics aiding saving energy.

GPS - Predictive Drive
Energy saving oriented through Predictive Energy Management and Predictive Traffic Event Drive.

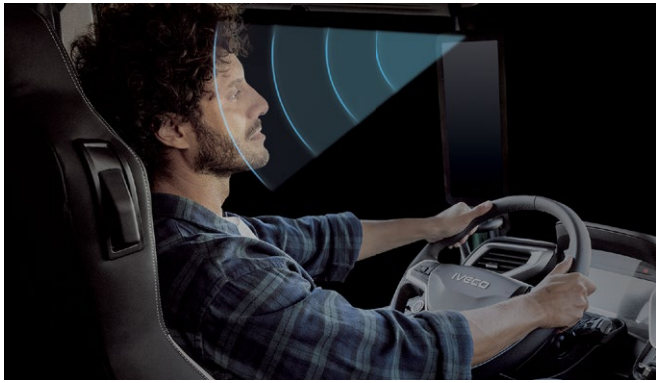
Smart Routing
Helping to plan optimised routes for efficiency and uptime.

Advanced Driver Assistance Systems (ADAS)

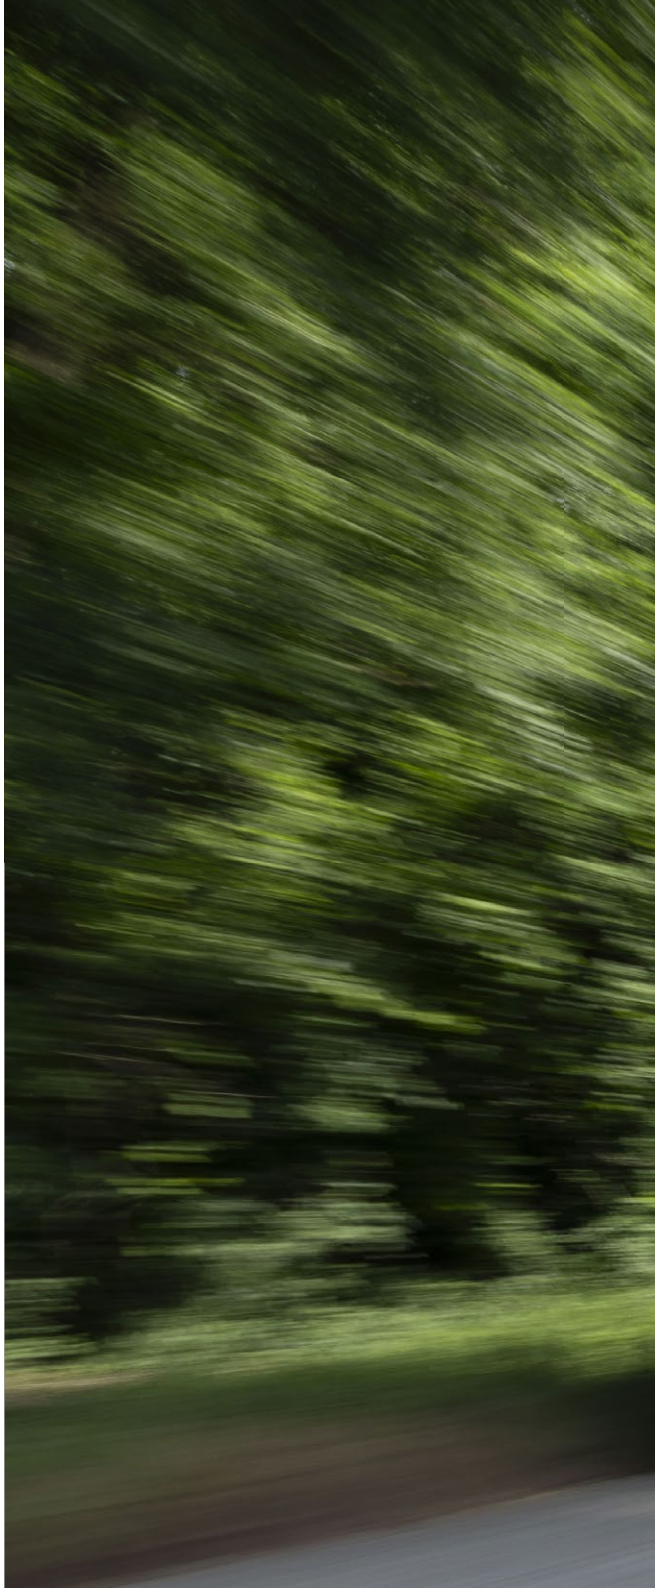
When technology takes care of your safety, you can focus on the journey. Level 2 Advanced Driver Assistance Systems (ADAS) support the driver every step of the way, enhancing comfort, reducing stress, and helping to protect both you and the other road users.



Highway assist
Actively supports the driver in keeping the vehicle centred in the lane. It uses the Front Camera, Active Steering and the Capacitive Hands-off Detection.
It can be automatically activated by Adaptive Cruise Control.



Driver monitoring system
Enhances road safety by detecting signs of driver distraction, drowsiness or mobile phone use. A discreet camera on the driver-side pillar continuously monitors attentiveness.
If fatigue or inattention is detected, the system triggers visual and acoustic alerts, prompting the driver to rest and refocus. Designed in line with the latest GSR-C regulations, it helps prevent accidents while protecting privacy. The system does not record or store facial images, ensuring full compliance with data protection standards.



Your Co-Driver in safety

The latest European General Safety regulations have brought to the IVECO S-eWay Artic new Advanced Driver Assistance features designed to protect both the driver and other road users.

ALC (Alcohol Interlock)
A standardised interface for the installation of compatible aftermarket or OEM alcohol interlock devices.

ESS (Emergency Stop Signal)
Warns road users behind the vehicle via hazard lights during heavy braking.

BSIS (Blind Spot Information System)
Detects road users moving at 5-20 km/h in the nearside blind spot zone and provides visual and acoustic warnings.

MOIS (Moving Off Information System)
Detects nearby road users in the front blind spot zone, providing visual and acoustic warnings.

REV (Reversing Detection)
Provides a clear view of road users and obstacles behind the vehicle when reversing, using a camera mounted in the rear crossmember.

ADDW (Advanced Driver Drowsiness Warning)
Monitors driver alertness and issues a warning if drowsiness is detected.

ISA (Intelligent Speed Assist)
Helps the driver observe road speed limits by providing visual and acoustic feedback.

EVSC (Electronic Vehicle Stability Control) and AEBS (Advanced Emergency Braking System)
AEBS recognizes potential front collisions, alerts the driver, and decelerates the vehicle as much as possible, providing full braking from 80 to 0 km/h. EVSC monitors lateral loads and reduces engine power while applying brakes to prevent spins or rollover.

TPMS (Tyre Pressure Monitoring System)
Continuously monitors tyre pressure and temperature, alerting the driver if a problem occurs. It ensures tyres are always maintained at the ideal pressure.

LDWS (Lane Departure Warning System)
Warns inattentive drivers if the vehicle departs from the lane without activating turn indicators.

Warranty coverage

Whatever the mission, IVECO has you covered. Our warranty protects both the vehicle and the traction batteries for up to 10 years, giving you confidence and peace of mind.

Standard warranty

1st year: full vehicle coverage
2nd year: driveline coverage
Traction battery: 6 Years/1.200 MWh/750.000 km (whichever comes first) with min 80% SOH.

Extended options for complete protection

The traction Battery warranty can be extended with customizable packages up to 10 Years / 1.250.000 km, ensuring comprehensive cover for your operations across any vehicle application.

* Mileage for 7 batteries version; please refer to your IVECO partner for more specific information and conditions.

Line up

Choose the IVECO S-eWAY Artic to suit your operation

Artic

Wheelbases (mm)	3,900

IVECO Services Solutions

At IVECO, we deliver Mobility Solutions that best meet your needs. Our goal is to help you reduce Total Cost of Ownership while increasing productivity by focusing on vehicle health and enhancing the driver experience, through an integrated portfolio designed to support your mission.

Uptime

Unexpected stops cost you. IVECO Uptime prevents them. Through continuous monitoring and remote diagnostics delivered by the IVECO Uptime Center and network, we reduce unplanned downtime by up to 24%.

eMobility

Managing an electric fleet requires new expertise. IVECO eMobility brings it all together. Combining smart routing, charging solutions, uptime services and 24/7 monitoring, it keeps operations productive and total cost under control. We already monitor 4,000+ Electric vehicles.

Productivity & Efficiency

In transport, profitability depends on daily decisions. IVECO Productivity & Efficiency gives you the insights to make them. With vehicle data visibility and analytics, it helps reduce costs by up to 5% while improving safety, routes and compliance.

Driver Care

Drivers operate under constant pressure. IVECO Driver Care reduces complexity and cognitive load. Through voice interaction, connected navigation and real-time guidance, it keeps drivers focused. Accidents can be reduced up to 5%.

Safety & Security

Managing risk requires visibility and control. IVECO Safety & Security delivers both. With IVECO ON connectivity and continuous monitoring, it enables early detection of unsafe behaviour and reduces accident exposure by up to 25%.

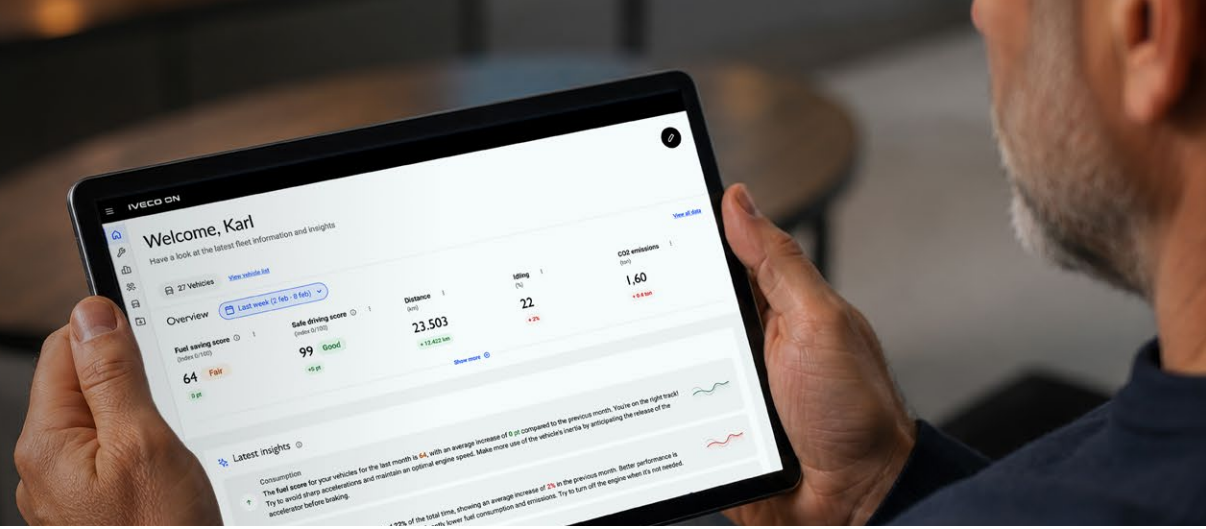
Parts & Accessories

Customize your vehicles and enhance life on board with our extensive selection of high-quality parts and services.

Connectivity

A smart way forward

Choose the connected solution that fits your business –
from essential visibility to uptime support and advanced fleet insights.
Add Premium services to tailor to your mission needs.



Standard Service Bundle

eStart
Essential tools to monitor and control your EV, boosting productivity, efficiency, and sustainability.

IVECO ON Access
Fleet visibility through the IVECO ON portal for real-time data and simplified management.

IVECO Easy App
Driver-friendly App for monitoring vehicle status, charging and driving information.

Uptime Monitoring and Management
Continuous health checks and proactive alerts to prevent downtime.

eRemote Control
Schedule and manage charging and comfort features remotely for cost efficiency and readiness.

eRange Assurance
Accurate range prediction and battery alerts for stress-free planning.

Premium Services

Tailor your Transport Solutions with powerful add-ons:

IVECO ON Web API
Integrate fleet data into your systems for advanced analytics and automation.

IVECO ON Plus
Location-based services with live vehicle positioning for smarter job planning.

IVECO eCharge Management
Public charging access with IVECO eCharge Card, simplifying admin and cost tracking.

Professional Safe Report
Analyze driver behaviour to identify areas for improvement and improved safety.

Tacho Data Download
Access tachograph data remotely to ensure compliance and save time.

IVECO eCharge
Combines private chargers and public network access in one solution with a single interface and contract.

Driver Assistant
Extends Smart Routing and infotainment features, adding extra years of connected experience.

Maintenance & Repair

A well-maintained vehicle is more reliable, fuel-efficient and retains its value over time.
IVECO Maintenance & Repair helps you protect your productivity with a proactive, structured service approach. You benefit from expert support by certified IVECO technicians using dedicated tools, advanced diagnostics and up-to-date procedures—ensuring fast, precise interventions.
All services use IVECO Original Parts, for consistent quality and long-term performance.

You can choose among pre-designed bundles or tailor your solutions combining the services and adding the coverages that better support your needs.

Combine the M&R services to build a contract tailored to your needs

Maintenance
Maintenance and lubricants, oils and fluid changes according to the Maintenance Plan as described in the customer handbook.

Wear
Covers clutch, brake pads, brake discs, brake drums or brake linings for drum brakes.

Driveline
Covers engine, fuel injection, gearbox, transmission propeller shaft and axle repairs.

Driveline Plus
Extends Driveline coverage to additional vehicle systems beyond propulsion, including energy systems.

Full Repair
Raises further the level of cover extending the Driveline Plus contract with repairs to the braking system (excluding wear components), clutch cylinder, suspension, heater, air conditioning, air compressor.

Additional coverage

You can further customize your cover with additional options:

ANS 24-hour assistance
Roadside assistance service for repairs covered by the warranty.

Towing service
Tow truck service conveying to the nearest repair point for repairs covered by the warranty (tow truck not included).

Auxiliary batteries
Repair and/or replacement of batteries, including ANS 24-hour callout where covered under the maintenance agreement.

Oil top up
Engine oil filling limited to 2 litres per 3.000 km.

Light bulbs
Replacement of faulty lamps.

Wiper blades
Replacement of windscreen wiper blades once a year.

Choose and combine to fulfill your requirements

You can choose the best service levels for your business size and needs, knowing that the associated costs are fixed and predictable.

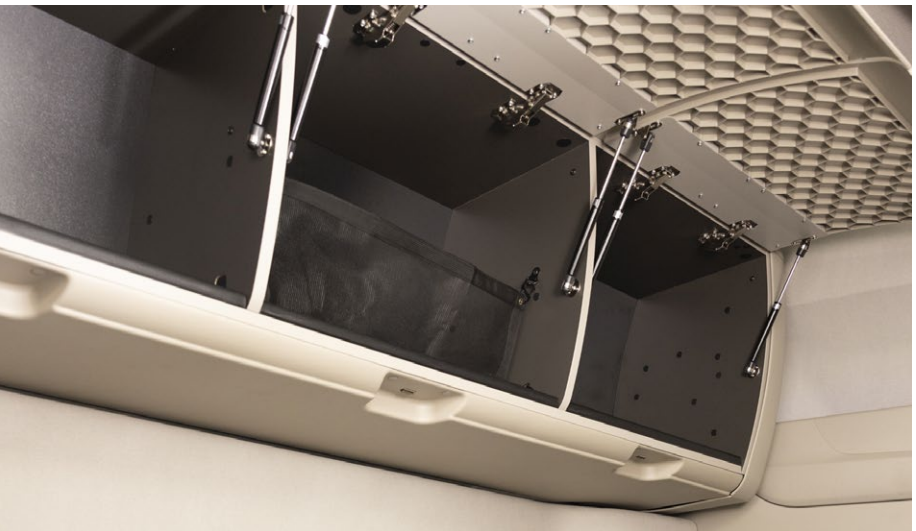
ESSENTIAL
Maintenance

ADVANCED
Maintenance + Driveline

PREMIUM
Maintenance + Full Repair

FULL REPAIR
Driveline + Extradriveline

* Wear selectable as option.



Parts & Accessories

IVECO offers you a wide range of parts and accessories to increase productivity, enhance versatility, optimize profitability, and keep your vehicle maintenance costs under control, improving your digital life on board and increasing your comfort.

Genuine Parts

HIGH PERFORMANCE

Designed to meet IVECO standards, certified **Genuine Parts** ensure **consistent performance** and **high quality** for your vehicle, with a wide choice of components.

Each part is tested and certified to guarantee IVECO quality. Delivery comes within 24h thanks to the extended IVECO network of Authorized workshop ready to support.

Reman Parts

SUSTAINABLE CHOICE

Through a dedicated and constantly evolving remanufacturing process, **IVECO Reman Parts** are restored by expert technicians to **original performance and specifications**. Each component is inspected, remanufactured and rigorously tested in line with IVECO quality standards.

Reman Parts deliver a sustainable and eco-friendly process to reduce waste and are a cost-effective solution.

Accessories

ENHANCED EXPERIENCE

IVECO Accessories offers an exclusive range of products designed to enhance the aesthetics, comfort, safety, and technological capabilities of your vehicle. Every accessory enriches and personalizes your driving experience, while boosting connectivity and operational efficiency.

IVECO Accessories are easy to install and fit perfectly on the vehicle, maximize the driving experience and the versatility of the vehicle.

IVECO
00800|4|8|3|2|6|000
Assistance Non-Stop

IVECO Non Stop

IVECO Assistance Non-Stop is just a phone call away 24 hours a day, 7 days a week to keep your S-eWay and your business running.
IVECO Non-Stop is the original IVECO smartphone application that you can use to communicate with IVECO if your vehicle breaks down. Just insert your vehicle information (VIN and registration plate) and with a simple push of a button you can send a request for assistance to the IVECO Customer Uptime Center. We will take care of your request immediately, activate the nearest workshop and follow up on the vehicle's repair. Through the App you can receive updates on the progress of your vehicle's assistance.

IVECO CAPITAL

Financial Services

IVECO CAPITAL is the financial services brand of Iveco Group, offering dealers and end-customers a comprehensive range of financing, rental, insurance and service solutions for commercial vehicles, powertrains and buses.

IVECO CAPITAL delivers tailored and flexible Mobility Solutions worldwide, empowering customers to move forward and realise their full potential.
