IVECO S-eWAY

Your IVECO S-eWAY Rigid at a glance

A new colour language:
IVECO Grey meets a touch of blue

Up to 400 km with one single charge
and up to 600 km with 45 min recharging

Up to 44 t GCW when towing

A battery layout for every application.
Industry-leading battery warranty
up to 9 years and 900.000 km

Born Connected. Built to Evolve
with Over-the-air capabilities
from day one

IVECO Services to maximize uptime
and business productivity

Engineered for your success

Energy efficiency & Productivity

Up to 490 kWh of energy on board and 480 kW continuous power of the eAxle ensure you can complete your daily requirements quickly and efficiently.
Specific Features for best energy saving (GPS Predictive, Mirror Cams, Regenerative Braking, Eco Mode) guarantee the best range possible.

Cutting-edge technology

State-of-the-Art 490 kWh NMC batteries (with 7 packs) with an outstanding warranty coverage of up to 9 years and 900.000 km.

Versatility & Flexibility

With a choice of batteries / layouts and 3 different ePTOs, the IVECO S-eWay can be configured for all urban, regional and light construction applications.
No compromise on Load Capacity with GVW up to 28 t and GCW up to 44 t.

Born Connected. Built to Evolve with Over-the-air capabilities from day one

Your new IVECO vehicle is always state-of-the-art, maximizing your time on the road.

IVECO Services to streamline electric operations

Tailored services managing energy, charging and uptime across your electric mission.

Your cabin, your space

Step inside a cabin designed around you. Every detail combines comfort, control, and style. The redesigned interior features a customizable dashboard, 10” TFT cluster, 10” infotainment, and an electric parking brake that engages automatically–simplifying operations and enhancing safety. With the AS cab, you’ll enjoy a fully adjustable steering wheel, lower driving position, and optimised ergonomics, while leather or fabric seats with plush cushions keep you comfortable on every mile.

Smart 10” Cluster and Infotainment

Configurable Cluster

With new intuitive specific features and functionalities designed for Electric vehicles: Battery management, Charging management, Power Flow Visualisation, ePTO Management; Regenerative Braking level visualization.

Smarter Infotainment

Navigation is enhanced with the Smart Routing functionality enabling you to search for the nearest charging station and ensuring sufficient battery charge at your destination whilst also taking into consideration the ePTO engagement.
Monitor your Electric vehicle behaviour with the Statistics Page to see the energy used by different items (eMotor, ePTO, Heaters and Clima).

Electric style

Stylish in all environments

Enjoy your Electric vehicle with a unique style: all cabs feature the IVECO logo in a matt gunmetal finish, a blue styling line on the bumper, and a sun visor with the Electric logo. Alternative gun metal or gloss black grille options are available for AS cab.

The front face includes LED headlamps as standard, radar for ADAS and GSR functions, steps and grab handles to access the windscreen and side air deflectors designed to keep the door and mirrors clear even in adverse weather conditions. The bumper offers a choice of plastic and hybrid solutions with a choice of colours to match the requirements of your specific mission.

A layout for every application

Choose the Battery Pack configuration that best suits your daily needs

Modular battery installation allows you to match the range of your IVECO S-eWay with the scope of your mission. You can order your IVECO S-eWay with 4 to 7 modular batteries according to your Urban or Regional requirements for a daily range of up to 400 km with one charge.

Battery pack	2 + 1 + 2	3 + 1 + 3	3 + 1 + 0
Energy on Board Nominal	350 kWh	490 kWh	280 kWh
Energy on Board Usable	300 kWh	420 kWh	240 kWh

The Microvast Battery has been designed for a lifetime of 12 years and 1,2 Mio km, with a 70% SoH at End of Life.

Versatile in every way, perfect for your mission

With a choice of 3 different Power Take Offs, you can be sure that you can configure your IVECO S-eWay to suit your mission even those not traditionally seen as suitable for Electric vehicles.

LV ePTO for Tail Lift, powering the Tail Lift directly from vehicle battery.

HV ePTO for Refrigerated mission, up to 20 kW continuous Power to allow temperature controlled transport.

Mech ePTO for Refuse Collection, Hooklifter, Skiploader, Crane, Tipper, Timber missions, up to 60 kW continuous.

Power to suit the most demanding applications.

Refuse Collection

Timber

Crane

Hooklifter

Skiploader

Tipper

Easy, flexible charging

Simple and safe operation

The driver's and passenger's comfort is guaranteed by a choice of seats, all with a full backrest. Choose from vinyl, fabric or leather, heated, air suspension, lumbar support and even seat belt colour. With the improved ergonomics of the steering wheel and controls, every driver will be comfortable.

Customizable to your mission

Set your preferred charging parameters directly from the Cluster:

Target State of Charge (SOC):
Stop charging at your desired battery level to optimize mission readiness.

Maximum Power Limit:
Control charging power drawn from the station for efficiency and safety.

Choose slow overnight charging to start each day fully powered, or use high-power charging during drivers' mandatory breaks to quickly boost range and keep deliveries on schedule.

Charging made easy

Power your electric trucks with **IVECO eCharge**—comprehensive solutions for private depot charging and access to public stations.
For your depot, our solution includes **premium chargers Recommended by IVECO**, tested for compatibility, and installed by **certified partners** for full warranty coverage.

Choose your setup:

Fast Pack (50 kW) – Simple depot integration

Super Pack (100 - 350 kW) – High-power for demanding operations

On the road, the **IVECO eCharge Card,** IVECO ON portal, and Easy App connect you to a growing network of **truck-ready public chargers.**
With **IVECO Customer Uptime Center** coordination, charging is seamless, so your fleet keeps moving and your business stays on track.
Availability may vary by country—check with your local dealer.

Diesel-like Payload

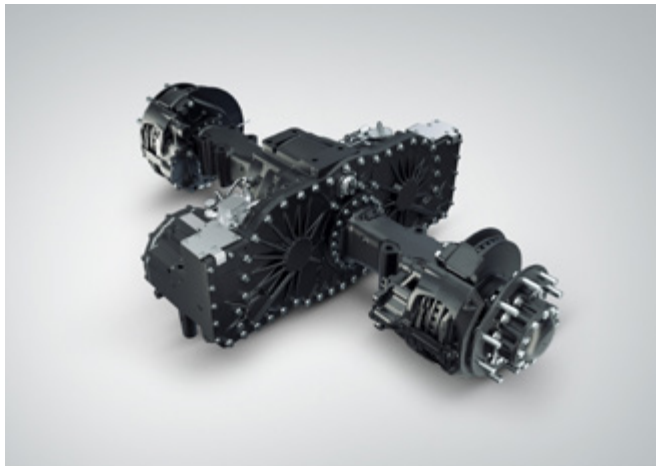
Diesel-like payload, exploiting the additional 2 tons for GVW and GCW permitted by the EU legislation for ZEV vehicles.

All the power you need

No compromise on Performance ensuring Top Energy Management.
The eAxle suits every Mission with performance up to 480 kW of continuous power and a compact shape to leave room for body equipment.

eAxle main characteristics

No. of eMotors	2
Gross Combined Vehicle Weight (tons)	44
Gross Axle Weight (tons)	13
Continuous Power (kW)	480
Peak Wheel Torque (Nm)	45.000



eAxle

IVECO

Energy saving features to maximise your range

Define the vehicle configuration that gives you the range you need.

Regenerative Braking

During deceleration the vehicle kinetic energy is used to charge the batteries.
7 different Regenerative Braking Performances can be selected to maximise energy recovery.

Eco Mode

Driving Mode Feature to maximise Range selectable by the Driver.
Fleet owner has also the possibility to select Over-the-Air the driving mode required.

Mirror Cams

The new mirrorless camera allows for a better visibility for the driver and improves aerodynamics, helping to save energy.

GPS - Predictive Drive

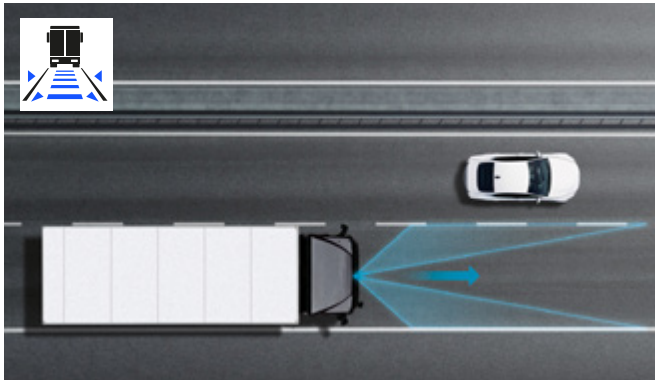
Energy saving oriented through Predictive Energy Management and Predictive Traffic Event Drive.

Smart Routing

Helping to plan optimised routes for efficiency and uptime.

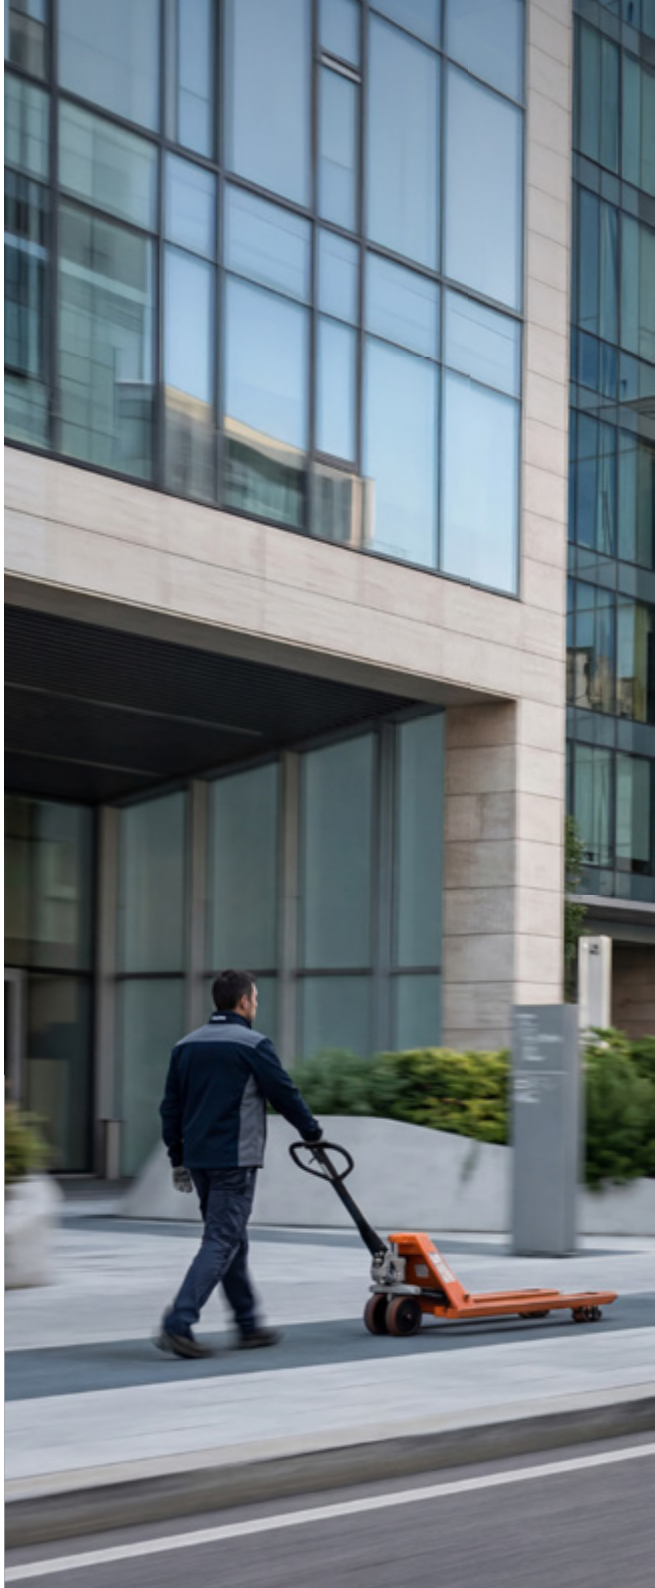
Advanced Driver Assistance Systems (ADAS)

When technology takes care of your safety and that of other road users to give you a calm, stress-free driving experience. Level 2 ADAS systems support the driver to be more comfortable and safer.



Highway assist
Actively supports the driver in keeping just the centre of the lane.
It uses the Front Camera, Active Steering and the Capacitive Hands-off Detection.
Can be automatically activated by the Adaptive Cruise Control.

Driver monitoring system
Enhances road safety by detecting signs of driver distraction, drowsiness or mobile phone use. A discreet camera on the driver-side pillar continuously monitors attentiveness.
If fatigue or inattention is detected, the system triggers visual and acoustic alerts, prompting the driver to rest and refocus. Designed in line with the latest GSR-C regulations, it helps prevent accidents while protecting privacy. The system does not record or store facial images, ensuring full compliance with data protection standards.



Your Co-Driver in safety

The latest European General Safety regulations have brought to IVECO S-eWAY new features for Advanced Driver Assistance Systems and protection of other road users.

ALC (Alcohol Interlock)

Is an alcohol interlock standardised interface for the fitment of compatible aftermarket or OEM alcohol interlock devices.

ESS (Emergency Stop Signal)

Warns the road users behind the vehicle via hazard lights, when braking heavily.

BSIS (Blind Spot Information System)

Detects road users moving at 5-20 km/h speed in the nearside blind spot zone, providing visual and acoustic warnings.

MOIS (Moving Off Information System)

Detects nearby road users in the front blind spot zone, providing visual and acoustic warnings.

REV (Reversing Detection)

Provides a clear view of road users and obstacles behind the vehicle when reversing, thanks to a camera placed in the rear crossmember.

ADDW (Advanced Driver Drowsiness Warning)

Monitors driver alertness and issues a warning if drowsiness is detected.

EVSC (Electronic Vehicle Stability Control) and AEBS (Advanced Emergency Braking System)

AEBS recognizes potential front collisions, alerts the driver, and decelerates the vehicle as much as possible, providing full braking from 80 to 0 km/h.
EVSC monitors lateral loads and reduces engine power while applying brakes to prevent spins or rollover.

LDWS (Lane Departure Warning System)

Warns the inattentive driver of the departure of the vehicle from the lane when turn indicators are not activated.

Warranty coverage

Whatever the mission, IVECO has you covered. Our warranty protects both the vehicle and the traction batteries for up to 9 years, giving you confidence and peace of mind.

Standard warranty

1st year: full vehicle coverage

2nd year: driveline coverage
Traction Battery: 6 years/ 160 MWh per each pack/ 600.000km* (whichever comes first) with min 70% SOH.

Extended options for complete protection

The traction Battery warranty can be extended with customizable packages up to 9 Years / 900.000 km*, ensuring comprehensive cover for your operations across any vehicle application.

* Mileage for 7 batteries version; please refer to your IVECO partner for more specific information and conditions.

IVECO Services Solutions

At IVECO, we deliver Mobility Solutions that best meet your needs. Our goal is to help you reduce Total Cost of Ownership while increasing productivity by focusing on vehicle health and enhancing the driver experience, through an integrated portfolio designed to support your mission.

Uptime

Unexpected stops cost you. IVECO Uptime prevents them. Through continuous monitoring and remote diagnostics delivered by the IVECO Uptime Center and network, we reduce unplanned downtime by up to 24%.

eMobility

Managing an electric fleet requires new expertise. IVECO eMobility brings it all together. Combining smart routing, charging solutions, uptime services and 24/7 monitoring, it keeps operations productive and total cost under control. We already monitor 4,000+ Electric vehicles.

Productivity & Efficiency

In transport, profitability depends on daily decisions. IVECO Productivity & Efficiency gives you the insights to make them. With vehicle data visibility and analytics, it helps reduce costs by up to 5% while improving safety, routes and compliance.

Driver Care

Drivers operate under constant pressure. IVECO Driver Care reduces complexity and cognitive load. Through voice interaction, connected navigation and real-time guidance, it keeps drivers focused. Accidents can be reduced up to 5%.

Safety & Security

Managing risk requires visibility and control. IVECO Safety & Security delivers both. With IVECO ON connectivity and continuous monitoring, it enables early detection of unsafe behaviour and reduces accident exposure by up to 25%.

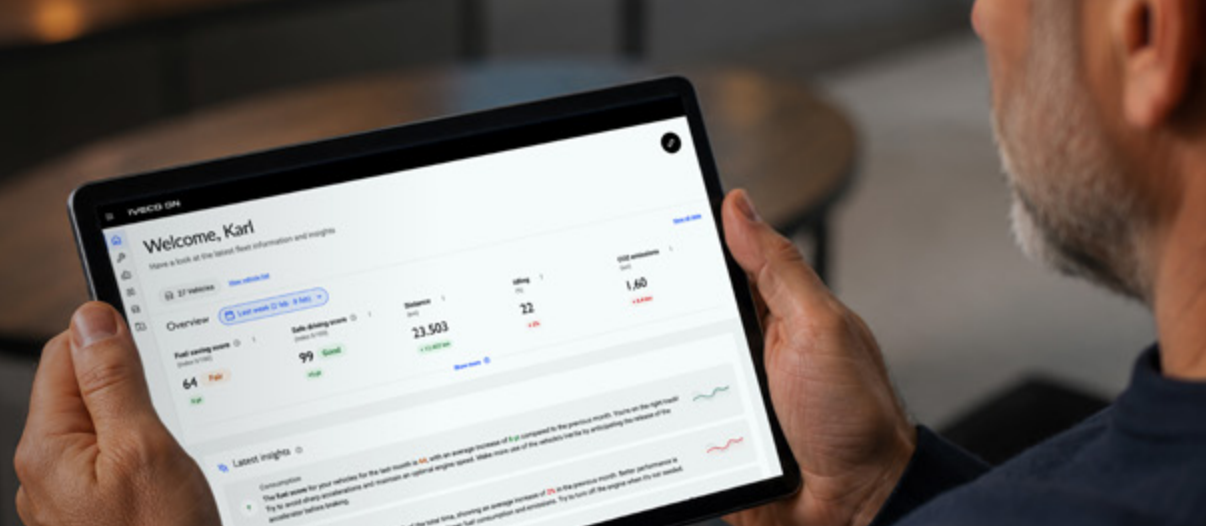
Parts & Accessories

Customize your vehicles and enhance life on board with our extensive selection of high-quality parts and services.

Connectivity

A smart way forward

Choose the connected solution that fits your business – from essential visibility to uptime support and advanced fleet insights. Add Premium services to tailor to your mission needs.



Standard Service Bundle

eStart
Essential tools to monitor and control your EV, boosting productivity, efficiency, and sustainability.

IVECO ON Access
Fleet visibility through the IVECO ON portal for real-time data and simplified management.

IVECO Easy App
Driver-friendly App for monitoring vehicle status, charging and driving information.

Uptime Monitoring and Management
Continuous health checks and proactive alerts to prevent downtime.

eRemote Control
Schedule and manage charging and comfort features remotely for cost efficiency and readiness.

eRange Assurance
Accurate range prediction and battery alerts for stress-free planning.

Premium Services

Tailor your Transport Solutions with powerful add-ons:

IVECO ON Web API
Integrate fleet data into your systems for advanced analytics and automation.

IVECO ON Plus
Location-based services with live vehicle positioning for smarter job planning.

IVECO eCharge Management
Public charging access with IVECO eCharge Card, simplifying admin and cost tracking.

Professional Safe Report
Analyze driver behaviour to identify areas for improvement and improved safety.

Tacho Data Download
Access tachograph data remotely to ensure compliance and save time.

IVECO eCharge
Combines private chargers and public network access in one solution with a single interface and contract.

Driver Assistant
Extends Smart Routing and infotainment features, adding extra years of connected experience.

Maintenance & Repair

A well-maintained vehicle is more reliable, fuel-efficient and retains its value over time.
IVECO Maintenance & Repair helps you protect your productivity with a proactive, structured service approach. You benefit from expert support by certified IVECO technicians using dedicated tools, advanced diagnostics and up-to-date procedures—ensuring fast, precise interventions.
All services use IVECO Original Parts, for consistent quality and long-term performance.

You can choose among pre-designed bundles or tailor your solutions by combining the services and adding the coverage that best supports your needs.

Combine the M&R services to build a contract tailored to your needs

Maintenance
Maintenance and lubricants, oils and fluid changes according to the Maintenance Plan as described in the customer handbook.

Wear
Covers clutch, brake pads, brake discs, brake drums or brake linings for drum brakes.

Driveline
Covers engine, fuel injection, gearbox, transmission propeller shaft and axle repairs.

Driveline Plus
Extends Driveline coverage to additional vehicle systems beyond propulsion, including energy systems.

Full Repair
Raises further the level of cover extending the Driveline Plus contract with repairs to the braking system (excluding wear components), clutch cylinder, suspension, heater, air conditioning, and air compressor.

Additional coverage

You can further customize your cover with additional options:

ANS 24-hour assistance
Roadside assistance service for repairs covered by the warranty.

Towing service
Tow truck service conveying to the nearest repair point for repairs covered by the warranty (tow truck not included).

Auxiliary batteries
Repair and/or replacement of batteries, including ANS 24-hour callout where covered under the maintenance agreement.

Oil top up
Engine oil filling limited to 2 litres per 3.000 km.

Light bulbs
Replacement of faulty lamps.

Wiper blades
Replacement of windscreen wiper blades once a year.

Choose and combine to fulfill your requirements

You can choose the best service levels for your business size and needs, knowing that the associated costs are fixed and predictable.

Parts & Accessories

IVECO offers you a wide range of parts and accessories to increase productivity, enhance versatility, optimize profitability, and keep your vehicle maintenance costs under control, improving your digital life on board and increasing your comfort.

Genuine Parts

HIGH PERFORMANCE

Designed to meet IVECO standards, certified **Genuine Parts** ensure **consistent performance** and **high quality** for your vehicle, with a wide choice of components.

Each part is tested and certified to guarantee IVECO quality. Delivery comes within 24h thanks to the extended IVECO network of Authorized workshop ready to support.

Reman Parts

SUSTAINABLE CHOICE

Through a dedicated and constantly evolving remanufacturing process, **IVECO Reman Parts** are restored by expert technicians to **original performance and specifications**. Each component is inspected, remanufactured and rigorously tested in line with IVECO quality standards.

Reman Parts deliver a sustainable and eco-friendly process to reduce waste and are a cost-effective solution.

Accessories

ENHANCED EXPERIENCE

IVECO Accessories offers an exclusive range of products designed to enhance the aesthetics, comfort, safety, and technological capabilities of your vehicle. Every accessory enriches and personalizes your driving experience, while boosting connectivity and operational efficiency.

IVECO Accessories are easy to install and fit perfectly on the vehicle, maximize the driving experience and the versatility of the vehicle.

IVECO
00800|4|8|3|2|6|000
Assistance Non-Stop

IVECO Non Stop

IVECO Assistance Non-Stop is just a phone call away 24 hours a day, 7 days a week to keep your S-eWay and your business running.
IVECO Non-Stop is the original IVECO smartphone application that you can use to communicate with IVECO if your vehicle breaks down. Just insert your vehicle information (VIN and registration plate) and with a simple push of a button you can send a request for assistance to the IVECO Customer Uptime Center. We will take care of your request immediately, activate the nearest workshop and follow up on the vehicle's repair. Through the App you can receive updates on the progress of your vehicle's assistance.

IVECO CAPITAL

Financial Services

IVECO CAPITAL is the financial services brand of Iveco Group, offering dealers and end-customers a comprehensive range of financing, rental, insurance and service solutions for commercial vehicles, powertrains and buses.

IVECO CAPITAL delivers tailored and flexible mobility solutions worldwide, empowering customers to move forward and realise their full potential.
