Smarter performance for every mission

Reduced downtime, smoother driving experience, and solutions designed for real-world missions.

The new Daily is the result of a product evolution focused on meeting your real-world needs, delivering reliability, safety, performance, and comfort even in the most demanding applications.

Its renowned **robustness** now works harder for you, enhanced by innovative, high-performance solutions that make your daily tasks easier and more efficient:

- **Advanced AIR-PRO adaptive air suspension** automatically adjusts vehicle dynamics to road and load conditions, ensuring a smoother ride and greater control

- **Selective Keyless system** allows you to lock or unlock only the door you need - improving convenience while keeping your cargo secure.

Quality goes beyond performance and durability, it also means **improving your everyday experience on board**. That's why the new Daily offers an even more pleasing environment thanks to:

- **Improved cabin soundproofing** for a quieter environment

- A **modern 10.25" Full TFT instrument cluster** for clearer, more intuitive information, and optimized management of advanced ADAS driver assistance systems, so you can drive and work with greater safety, confidence, and less stress.

Every detail is designed to support your comfort and productivity: from the exclusive **Hi-Adaptive memory foam seats** to the **electric parking brake** and the smooth **8-speed Hi-Matic automatic transmission**, the new Daily is built to be your ideal partner - delivering a more complete, efficient, and high-quality experience every day.
